SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Phase II Activation of the Heat Contingency Plan

Phase II actions of the California Heat Contingency Plan are taken as a result of the issuance of a Special Weather Statement by the National Weather Service predicting an Excessive Heat Warning for an Operational Area or power outages during warmer-than-normal weather conditions. Phase II of the Heat Contingency Plan has been activated as of Saturday, 06/17/17 due to forecasts of dangerous and excessive heat.

- Per the National Weather Service (NWS):
 - An Excessive Heat Warning has been extended through Friday evening over much of the Sacramento and Central Valleys, and Saturday for portions of Southern California.
 - In addition to the Excessive Heat Warnings, Heat Advisories are in effect for surrounding areas with high temperatures forecast to range from 105 to 114 degrees across most inland areas with locally hotter temperatures possible.
 - Red Flag Warning in effect for the eastern portion of Shasta/Trinity National Forest through the Southern San Joaquin Valley from Wednesday afternoon through Thursday evening for high temperatures and winds with lower relative humidity in these areas.
 - Heat stress possible for livestock with limited relief from the heat overnight.
 - Area waterways are running very cold and fast, increasing risk for hypothermia and water rescues.
 - Phase II actions of the California Heat Contingency Plan has been extended from Wednesday 06/21/17 to Friday 06/23/17.
- Cal OES has created a page listing Summer Heat Resources including a map of cooling centers around the state, see link below.
<http://www.caloes.ca.gov/ICESite/Pages/Summer-Heat-Resources.aspx>

EMAC and Public Assistance - 2017 Winter Storms

Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.

- See Cal OES Mission Tasking slide for Mission Tasking information

SITUATION SUMMARY

Cal OES INLAND REGION

Flooding / Evacuations, Riverland Resort, Kingsburg, Tulare County

On 06/18/17 at 1000 hours, Riverland Resort in Kingsburg, Tulare County experienced out-of bank flooding along a non-leveed area of the Kings River. Riverland Resort is a recreational park with cabins, apartments, RV sites and amenities available for rent. The flooding is a result of Pine Flat Reservoir releases increasing to 12,800 cfs through the end of June. Reservoir inflows and resulting releases are expected to peak Wednesday, 06/21/17.

- The Flood Operation Center (FOC) is currently evaluating hydrologic conditions.
- The Kings River Conservation District has initiated 24 hour monitoring of this area.

Evacuations

Per the Cal OES Law Duty Officer (LDO) on 06/20/17 at 0846 hours:

- On 06/19/17, Tulare County issued a mandatory evacuation order for the Riverland RV and Campground.
 - Approximately 300 people have been evacuated from the resort.
- On 06/21/17, Fresno County Sheriff is advising that they have Deputies stationed at the Riverbend Trailer Park.
 - There are 43 residents who evacuated.
 - There were 13 residents who remained in their houses.

Shelters

American Red Cross Shelter: Reedly High School, 740 W. North Ave, Reedly

- Midnight Count: 9 residents.
- This shelter is taking residents from Riverbend Mobile Home Park (Tulare County) and Riverland RV Park (Fresno County) due to close proximity.

Road Closure

Per the LDO on Monday 06/19/17 at 2249 hours:

- Localized flooding only and only the resort has been impacted.
- No hard closures to any major roads.

SITUATION SUMMARY

Cal OES INLAND REGION (Continued)

Derailment , Roseville, Placer County, SPILL: 17-4482

On 06/23/17 at 0341 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad advising three railcars derailed upright in the Roseville Railyard, Roseville, Placer County.

- The derailment was caused by a mechanical malfunction on the railcar's connector.
- No impact to rail traffic was reported.
- Two railcars were empty, one railcar was transporting lumber.
- There are no reported impacts to waterways.
- There were no injuries to crew members.
- The CSWC made all appropriate notifications per Hazardous Materials SOP.

Power Outage, Mercy Hospital, Folsom, Sacramento County

On 06/22/17 at 2114 hours, the CSWC received a report of a power outage at Mercy Hospital in Folsom, Sacramento County. The outage began at approximately 2014 hours. Per the Inland Duty Officer (IDO):

- The Hospital Emergency Operation Center (EOC) was activated.
 - The Mental Health Operational Area Coordinator (MHOAC) and Emergency Medical Services Authority (EMSA) were working on coordinating patient transfer needs.
 - Sacramento Municipal Utility District (SMUD) estimated power would be restored on 06/23/17 at 0000 hours.
 - There were no requests for State assistance.
 - IDO was monitoring the situation.
 - Power was restored on 06/22/17 at 2345 hours.
 - No patient transfers were reported.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Solano County: Sacramento River at Rio Vista

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Placer County: Truckee River at Truckee
- Alpine County: East Fork Carson River at Markleeville
- Stanislaus County: Tuolumne River at Modesto

River Forecast - The following river is forecast to meet or exceed Flood Stage:

- Mariposa County: Merced River at Yosemite Pohono Bridge is forecast to exceed flood stage at 10.0 feet the morning of 06/24/17.
 - Potential Impacts: Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Flood Stage:

- Mono County: West Walker River at Highway 395 below Little Walker is forecast to exceed flood stage at 6.0 feet and up to 6.8 feet through 06/27/17.
 - At 6.0 feet, some minor flooding of lowlands, pastures and rural roads.
 - At 6.6 feet, minor to moderate flooding of lowlands, pastures and some rural roads along river from Walker to Topaz Lake.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 2	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Highway, Vegetation Fire, Kern County

Location: HWY 178, west of Lake Isabella

Jurisdiction: Federal DPA, FRA, Sequoia National Forest

Start Time: 06/18/17 at 1422 hours

Per CAL FIRE, Cal OES Fire Duty Officer (FDO) and ICS-209 of 06/23/17 at 0619 hours:

- 1,522 acres, 95% contained
- Expected Containment Date: 06/25/17
- No anticipated fire spread
- Continue direct hand line construction and air support
- 5 Local Government Engines assigned under local agreement
- 1 Cal OES Fire Rescue Branch Assistant Chief Assigned.

Holcomb, Vegetation Fire, San Bernardino County

Location: Highway 18 x Holcomb Valley Rd, east of Big Bear Lake

Jurisdiction: Federal DPA, FRA, San Bernardino National Forest

Start Time: 06/19/17 at 1505 hours

Per CAL FIRE and the Cal OES Fire Duty Officer (FDO) as of 06/23/17 at 0621 hours:

- 1,562 acres, 65% Contained
- Expected Containment: 06/27/2017
- Type-2 Incident Management Team (IMT).
- 6 single residential and 1 commercial structures along with infrastructure threats (power lines and high pressure gas lines).
- Construct hand lines and advance hose lays, protect critical infrastructure.
- 50 Local Government Engines and 8 Water Tenders assigned under local agreement.
- 1 Cal OES Water Tender assigned.
- 2 Cal OES Fire Rescue Branch Assistant Chief's assigned.

WEATHER OF CONCERN

Weather of Concern

- A strong ridge of high pressure aloft will continue to bring excessive heat to the deserts through Monday, before conditions begin to cool. The coast will remain relatively cool due to the marine layer and onshore breezes.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Very Hot/Dry All PSA's Through Sunday. ***

Strong high pressure will remain over the Northern California region through Sunday. North northeast surface winds will be at lighter speeds mainly in the northern Sacramento Valley and the western Cascade-Sierra slopes through early Friday. Temperatures will continue 15-20 degrees above normal, with widespread relative humidity (RH) readings in the 10-20% range, and as low as 5-15% in the wind-affected areas. Humidity will only recover to 30-40% in the windy areas tonight.

Today through Sunday will continue to be hot and dry with lighter winds. Isolated thunderstorms today through Saturday will stay mainly in the Sierra south of Highway 50. The high pressure ridge will weaken starting late Sunday, but it will have little affect on Sunday temperatures. There is a chance of showers and thunderstorms late Sunday over the higher terrain as the ridge weakens. A low pressure trough will gradually replace the ridge early next week and temperatures will trend down toward normal. This pattern will also allow a daily chance of afternoon and evening showers and thunderstorms

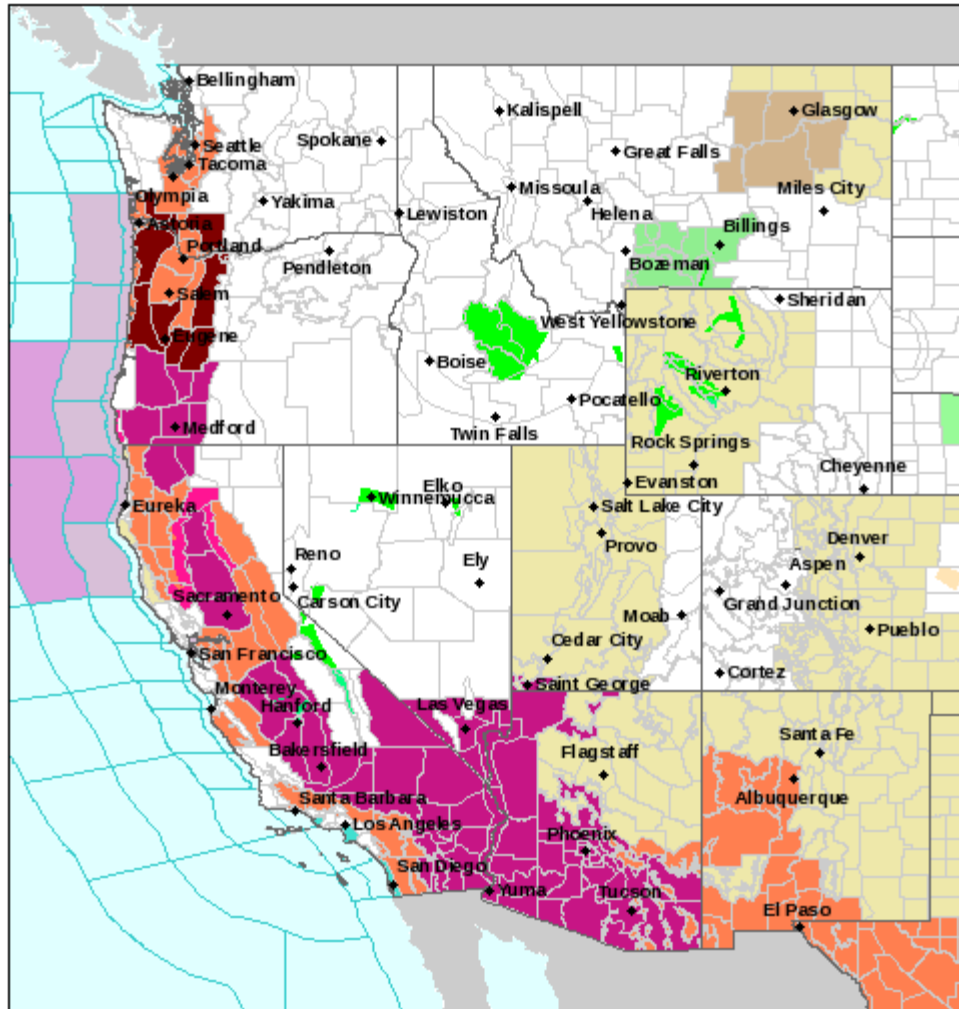

SOUTHERN CALIFORNIA

Turning Breezy this Afternoon

Above Normal Temperatures through the Weekend

High pressure over the Eastern Pacific and the Southwest will continue to produce very warm temperatures over the next few days. However, onshore flow combined with a bit deeper marine layer will bring noticeable cooling to the coast and some of the coastal valleys today. High temperatures the next couple of days will range from the 90s in the valleys and lower foothills to 102-108 in the San Joaquin Valley to 115 in the desert. West and southwest winds of 15-25 mph with gusts to 35 mph will be possible across the Antelope Valley, Banning Pass and nearby areas this afternoon. This weekend, onshore flow will weaken and the flow aloft will turn more northerly. This may bring warmer weather to a few regions such as the south coast of Santa Barbara and Ventura County as well as the L.A. Basin. Temperatures in these areas may climb into the 90s to near 103 in the valleys Saturday and Sunday. Local north winds of 10-20 mph will be possible tonight into Saturday morning. Expect a handful of storms near the Sierra Crest each afternoon. Next week, a trough over the Pacific Northwest is expected to bring additional cooling - especially to Central California. Highs will be a few degrees above seasonal averages, but most valleys will stay in the lower to mid 90s which is 10-15 degrees cooler than the temperatures experienced earlier this week.
